World AIDS Day, 1994

2289. SHRI TINDIVANAM G. VENKATARAMAN :
SHRI HIPHEI :

Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state :

(a) whether 'World AIDS Day' was observed on 1st December, 1994;

(b) if so, the details thereof with background for such celebration;

(c) whether Government have highlighted the factors responsible for spread of AIDS amongst the people on this day;

(d) if so, the details thereof; and if not, the reasons therfor;

(e) whether it is a fact that transmission of the AIDS inducing HIV virus is shifting from high risk groups to low risk groups of population of the country;

(f) whether a large number of people are suffering with AIDS;

(g) if so, the State and Territory-wise details thereof with preliminary symptoms;

(h) whether Government have announced some AIDS prevention measures on "World AIDS Day"; and

(i) if so, the details thereof and if not, the reasons therefor?

THE MINISTER OF HEALTH AND FAMILY WELFARE (SHRI B. SHANKARANAND) : (a) and (b) Yes, Sir. A series of activities such as public meetings, seminars, allies by Government and non-Government Organisations were organised on the occasion of World AIDS Day—1994.

(c) and (d) Yes, Sir. The modes of transmision and manners of prevention were highlighted. The accent was on generation of awareness and knowledge in all these programmes.

(e) Yes, Sir. There are instances of percolation of HIV infection from high-risk behaviourer groups to others.

(f) and (g) 905 AIDS cases have been reported from the States/UTs as on 30-11-94. State and Territroy-wise details are annexed as Statement (See below). The predominent infections observed in these AIDS cases are tuberculosis and candidiasis (a fungal infection).

(h) and (i) A comprehensive national AIDS Control programme is currently under implementation throughout the country. The programme consist of generation of awareness amongst high risk behaviour groups and the general public prevention and control of STD, promotion of condom, use of prevention of STD, HIV, blood safety and rational use of blood and better facilities for surveillance, diagnosis and management of HIV/AIDS cases.

Statement

National Aids Control Programme, India
